FEATURES & BENEFITS

RH-54 Xp is an carboxylated latex with excellent wet & dry pick resistance for offset printing. It is specially developed for air knife coating with good rheology & pick resistance required for super calendaring. It also provides high gloss to the coating after super calendaring. Excellent compatibility with natural and synthetic co-binders.

ADVANTAGES

- Excellent pick resistance.
- Excellent water resistance.
- Excellent film forming & film integrity.
- Good run-ability even at high shear rates.
